

AARON C. DAVIS

1827 Vinton St. Lafayette, Indiana, USA 47904 ► 1.385.203.7487 ► davi1381@purdue.edu

Education

***Ph.D. in Mechanical Engineering, Purdue University August 2019 – December 2024
(expected) GPA 3.49/4.0***

Advisors: Dave Cappelleri, Luis Solorio, Craig Georgen

B.S. in Mechanical Engineering, Brigham Young University April 2019 GPA 3.74/4.0

Advisors: Brian Jensen, Richard Vanfleet

Research Experience

Graduate Research Assistant ► Prof. Dave Cappelleri Group

Purdue Department of Mechanical Engineering ► August 2019–Present

Designed and tested several magnetic microrobots for drug delivery and micromanipulation utilizing smart materials and micro 3D printing. Resulting in three first author conference papers, one other conference presentation, and two other journal articles.

Graduate Teaching Assistant ► Mechanics of Materials

Purdue Department of Mechanical Engineering ► August 2021–December 2021

Developed and graded homework problems. Held TA office hours to help students with homework and studying.

Lab Research ► Prof. Brian Jensen Group

BYU Department of Mechanical Engineering ► August 2016–April 2019

Designed and built a micro gas chromatographic column. Developed and implemented a process for thermal gradient column microfabrication based on vertical through-wafer silicon etching and wafer-bonding. Resulting in one journal article and one conference presentation.

Undergraduate Intern ► Sandia National Laboratories Advanced Fuzing Technologies

Sandia National Laboratories ► May 2018– August 2018, May 2019– August 2019

Worked as part of a team on production of weapons components. Designed and built testers for piezoelectric sensors, electrical switches, and voltage isolation circuits for certifying new components and monitoring old equipment.

Teaching Experience

Teaching Assistant ► Mechanics of Materials

Purdue Department of Mechanical Engineering ► August 2021–December 2021

Wrote homework assignments and held office hours to assist students with concepts and questions.

Teaching Assistant ► Introductory Newtonian Physics

BYU Department of Physics ► January 2019–April 2019

Lead recitation section of 20 students including example problems, answering questions, and reviewing concepts.

Missionary Volunteer ► Kobe Japan

Church of Jesus Christ of Latter-Day Saints ► April 2013–April 2015

Trained, held meetings, and created progress reports for 20 to 24 other volunteers regularly. Interacted with many different people every day and learned the importance of communication and active listening.
